The device is powered by an Einhell Brushless motor for more power and longer runtime. After online registration, the motor comes with a 10-year warranty. The toolless 2-in-1 conversion enables suction and blower function (250 km/h). With a suction capacity of 740 m³/h, leaves are collected in the 45-litre collection bag with shredding function and level control. Speed control with LED display and turbo switch control the power. Wheels, carrying strap and additional handle reduce the strain on the user. Delivery without battery and charger.
